# State Funding and Federal Funding

The annual ABE application is for:

State ABE funding (FIN 322)

Federal ABE funding (FIN 438)

NOTE: Please be sure your authorized signer is aware of the June 3 deadline!

# Federal funding: fiscal year end

What happens when federal ABE funds are not spent at the end of the fiscal year?

Federal funds must be expended by June 30.

Unspent federal funds roll over into the total statewide pot of funding for the following fiscal year.

# State funding: fiscal year end

What happens when state ABE funds are not spent at the end of the fiscal year?

Up to 20% of state funds can be spent between July 1 – September 30 of the following fiscal year.

When carrying over funds in this way, be sure they are course coded correctly (009 = FY19 funds).

Any unspent state funds are returned to the state general fund and no longer available to ABE.

## Check with your business office!

Are expenditures on track with the budget?

How much state and federal funds are remaining?

Will all those funds be spent by the end of the fiscal year?

If all funds can't be spent, how can we make sure state funds are spent down first, to avoid losing them?

NOTE: in FY18, a larger than usual portion of ABE state funds went unspent.

# Testing

# CASAS GOALS Math Test

- The U.S. Department of Education approved the new CASAS GOALS Math test for ABE levels in the NRS.
- MDE reviewing for approval July 1, 2019 or possibly earlier.

The image shows the CASAS logo in a dark blue, stylized font. The letters are bold and interconnected, with a registered trademark symbol (®) to the upper right of the 'S'. The logo is centered on a light gray rectangular background.

# TABE Transition Process

- TABE 9/10 will no longer be a valid assessment as of July 1, 2019
- For programs currently using TABE 9/10, there will be two options as of July 1:
  - TABE 11/12
  - CASAS GOALS

# From TABE 9/10 to 11/12

TABE 9 & 10 are not considered the same as 11 & 12 for data purposes, meaning that if a student has a pretest in 9 or 10, the student:

- Cannot be post-tested with an 11 or 12.
- Does not need to wait 40 contact hours before taking a 11 or 12 (which is then a new pre-test).

# Important Consideration: entering attendance

As of July 1, if a student does not have a valid test\*, no more than 12 hours of attendance can be entered in SiD.

\* Valid tests for ABE levels = CASAS GOALS or TABE 11/12

# Data entry of tests into SiD

The last day to enter any TABE  
9/10 scores into SiD will be:

July 15, 2019

# Test Transition Planning

- Have you purchased new tests?
- Have staff been trained on the new tests?
- What is the timeline for switching to new tests?
  - With current students who have already made a gain this year?
  - With current students who haven't yet made a gain this year?
  - With new students?

# Important Considerations: level gains

Consider your program's level gains!

- Make sure all students pre-tested on the 9/10 have the opportunity to post-test on the 9/10.
- Until June 30, students can pre-test and post-test on BOTH 9/10 and 11/12. Even if a student has taken an 11/12 pre-test, consider giving them a 9/10 post-test as well if they haven't yet shown a gain in the year.

# Testing Transitions Scenario #1

- Student A registers for your program on June 16. They are given a TABE 9M. They attend for 26 hours in the month of June.
- On July 1 this student is given a TABE 11M. Because this is a new pre-test, this student cannot show a level gain.
- Later in July, after 15 additional hours of instruction, the student gets a new job and stops attending classes.
- **This student never had the opportunity to show a level gain.**

**Q: How can this be avoided?**

**A: Any student who will likely not complete 40 hours of instruction before July 1 should be pre-tested on a NEW TEST (CASAS Goals or TABE 11/12)**

## Testing Transitions Scenario #2

- A returning student comes to re-enroll in classes on June 7. Their last test was a 10M in March, 2019. They have 13 hours of instruction since that test.
- Student begins attending class on June 10. Student attends 23 hours in June.
- Student continues attending class in July. On July 10, intake staff email you to say they got an error message that they can't enter any additional hours for this student.

**Q: What happened? And how can this be avoided?**

**A: The student no longer has a valid level as of July 1, so only 12 hours of attendance can be entered.**

**To avoid this, test all students on 11/12 or CASAS GOALS by July 1.**
